Booker T. Washington High School Reunion, Planned for September 2nd Through the 3rd, 2022

The Booker T. Washington High School (BTW) steering committee and alumni are looking forward to coming together again! It has been fifty-four years since the closing of our school. The last graduating class of BTW was in 1968. We had planned to come together in 2020; but our plans were not HIS plans. Due to the 2020 COVID pandemic, we had to postpone.

Committee members, from left: Dixie Ballou, Neilda Pitts, Jean Strickland, Rosalind C. Harris, Armelia J. Williams and Wiley Simmons. Not pictured: Carolyn N. Jackson, Porter McKamey, & Evelyn Shropshire.

We are excited about plans for September 2-3, 2022!

If you want more information, please contact us by calling (423) 315-7493.

BTW has so much rich history!

Minority Health Fair Brings Community to UTC Campus

Chattanooga Mayor Tim Kelly poses with representatives from the city's Office of Community Health, including, far right, director, Dr. Mary Lambert.

Dawn Ford, left, an assistant professor in the University of Tennessee at Chattanooga Master of Public Health program, consults with MPH graduate students Taylor Teasley and Jillian Saraney at the 21st annual Hamilton County Minority Health Fair. Photo by Angela Foster.

By Chuck Wasserstrom

Mary Lambert's eyes lit up when she was asked to speak about the significance of the Minority Health Fair taking place at the University of Tennessee

at Chattanooga.

"I am so proud of the UTC campus and the School of Nursing," said Lambert, director of the city of Chattanooga's Office of Community Health and

a member of the School of Nursing's second graduating class in 1978.

"It is so important to have this event in the center of the community and to provide all these services to

many who probably don't have access to this. That's what we're working on in the city's Office of Community Health:
